1) Analysis of the documents

**Increase (go up)**

**Decrease (go down)**

**Jobless**

This set of documents is made of three documents. Two website articles taken from electricpig.co.uk and number 3 is a chart from Brian Wesbury.

These documents deal with robots helping us in everyday life or threatening us in factories. Therefore, the set of documents raises the issue of positive and negative aspects of robots.

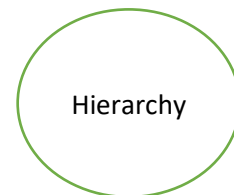

Will robots replace us in the future?

**to weigh up the pros and cons**

Firstly, robots can be helpers

In a second time, robots can take our jobs.

Finally, we will analyse the relationship between robots and men, to determine if robots will stay slaves for humans.

IDEA

Robots=helpers

- Parks our car ==>no spot / lose time ==> save time
- "Nasty scrapes" ==>help for difficult tasks ==>precision "with ease"
- Double car parking place/capacity
- Wheels pivot/Rotating cabin ==>" drive sideways" ⇨big cities
- Produce more ==> more money (more taxes for the county)

II-Nissan (doc 2) ==> ugly car just four cars produced (prototype) ==> expensive

Old car parks ==> employee at the front gate

The more production – the less jobs ==> paradoxical ==> robots are more efficient (= pros and cons)

III – Employees ==> save time = motivation and productivity

⇨ Relax

- ⇒ Create new jobs (maintenance) ==> skills
- ⇒ Better salaries

## 2) Listen to the audio report

### NBR Teenager wins millions playing Fortnite

We speak about Bugha “Kayle”, is 16 years old he came from Pennsylvania who plays Fortnite and win a 3 million in a world cup. He was really happy to get pays off his parents, is proud of her, save it for the future, gets a new desk, same hours (six hours each day) as anybody else it’s a same job as something else (hard working)

## 3) Practice speaking task

Tr-Mum and Dad, I want to become a professional Fortnite player by stop going to school

Th-I can’t accept this, you need to go to school.

Si-Your dad is right!

Tr-But, look at Bugha we won a million dollar

Th-Who is Bugha, and we don’t care you will go to school...

Si-And what will you do if you don’t become a professional player?

Tr-I will become one of these won a lot of money by playing video games Mom, I promises you !

Th-You kidding me, right?

Tr-No Dad, I’m not kidding you, you need to trust me.

Th-I will not trust you it’s future proof

Si-Listen to me Theo we can wait for 1 year, and if he doesn’t get any dollar he will go back to school.
