

Wednesday 5 October 2021

Recap of the last séance:

1) Introduction:

Thanks to VR, journalist can share their experience with viewers, who are more active because they use a 360-degree camera.

2) Therapy:

In the fold of therapy, virtual reality helps to treat and control of fears and phobias, for example of you are scarred of spiders.

3) Travel & entertainment:

As far as travel and entertainment are concerned, people will follow events with more intensity, for instance concerts or sports events.

Finally, we can visit for whole world from your sofa.
